PINEAPPLE HOUSE & cottages - A charming boutique hotel. This exquisite property is nestled on a hillside situated at the famous Falmouth Harbour offering million dollar bay vistas.

There are four cottages, all impeccably located in the hub of the Caribbean yachting community and are in walking distance to some of the island's most popular cafes, bars and restaurants. You will find the historical Nelson's Dockyard is just around the corner, and in the other direction, you will find a beautiful white sandy beach down the road.

The four island style cottages beautifully set among the foliage, leaving the entire property in a very natural and colorful state. The entire property is festooned with glorious flowers and various native fruits. There are superb stone paths and stairs connecting the buildings.

This property is ideal for private holiday rentals or could be transformed into a tranquil spa retreat or boutique resort.
